

BEST Program

TAI's Mentor-Protégé Program is designed to promote the profitable growth, self-determination, and the economic wellbeing of Tribal, 8(a), SDVOB, Woman-owned, and other Small Businesses with whom Tessada has developed a strategic teaming relationship.

These companies may be eligible for either direct awards or limited competition on federal and local government as well as commercial contracts. Through its private Mentor-Protégé Program, at the request or direction of the Protégé firm, TAI provides a variety of services to these companies through informal mentoring including business development, contract/project management, operations, and general business support.

Corporate Overview

Tessada's mission is to drive business efficiency, effectiveness, and evolution.

Tessada & Associates (TAI) is a Veteran-Owned government infrastructure services and solutions provider. TAI was founded in 1993, and graduated from the Small Business Administration's 8(a) program in 2004. We currently support more than 20 U.S. government agencies with over 500 associates nationwide.

We assist our customers in accomplishing their core mission efficiently and effectively by focusing our efforts on support functions. TAI meets customer mission-critical needs by applying the latest technologies and industry best practices to satisfy their requirements.

TAI engages in a wide range of professional and industrial disciplines including acquisition support, logistics, multimedia, IT, facilities management and program management services.

We are experts in using technology to reduce the cost of operations, simplify business processes, and create sustainable solutions for business growth. Our reputation is built on outstanding performance in integrating solutions throughout the Federal Government. We have consistently earned high evaluations, recognition, respect and repeat business of our clients.

Core Capabilities
